GRANT AND WADE is the Presidential ticket recommended by a State Convention of Republicans in North Carolina.

THE FREE RAILROAD BILL has gone to a Committee of Conference from the two Houses to settle the disagreements. The Committee will hold its first session on Tuesday next.

ON the day of Mr. STANTON'S re-in-statement in the War office by the Senate, he proffered a letter of resignation, intending, after three or four days of quiet possession of the office, to forward this letter to the President. That it was not so sent was solely in consequence of the actively hostile attitude which the President instantly assumed, and which in fact forbade the Secretary to make any personal concessions whatever.

THE disappearance of the nitro-glycerine packages from New York can probably be accounted for by the Fenian leaders. We do not incline to the belief that it was spirited away to do damage at the seat of Government, although such a supposition might not prove groundless. There are political fanatics weak and wicked enough to entertain the idea of blowing up the Capitol during the session of Congress, but we opine none would be so reckless as to attempt carrying out the plot.

A NATIONAL CONVENTION of refiners and dealers in petroleum has been called to meet at Pittsburgh on the 4th day of March next. The call emanates from the Petroleum Association of this city, and is at the instance of the trade generally in all parts of the country. Questions of much importance to the interests of refiners and dealers in oil will be considered by the Convention, and it is hoped and expected that the entire trade, which has now become so vast in its resources and commercial influence, will be fully and ably represented in its deliberations.

A MESSAGE from a reliable source contradicts the statement made yesterday in the city papers, which was based on a telegram received from Gen. C. H. T. Collis, of Philadelphia, to the effect that the delegates selected to the State and National Republican Conventions from that city were almost unanimous for Mr. Curtin. It is stated that eight of the delegates are for that gentleman and fourteen against him.

It is also denied that Chester county instructed her delegates for Curtin. We await the mails to determine the truth on the subject.

THE primary meetings to be held throughout the county to-morrow, for the purpose of electing delegates to the Republican Convention, which will assemble on Monday next, should be attended by every member of the party. The important business to be transacted by the Convention on Monday demands that none other than able, fit and intelligent delegates be sent there to represent the voters of the various districts, and we trust not a single Republican will remain away from the primary election.

Aside from the selection of delegates the voters are requested to give expression to their sentiments regarding the proposed change in the manner of making nominations in Allegheny county. Elsewhere we publish the call of the Union Executive Committee for the Convention, which designates the hours for the primary elections to take place in the different wards, boroughs and townships.

THE HOUSE Impeachment Committee have not yet completed their preparation of the articles which they were instructed to draw up, but probably may be prepared to report to-day. The number and tenor of the Articles which they may present are, of course, entirely unknown, and rumors purporting to give the substance of this report in advance, are merely sensational and entitled to no credit. One of these rumors, which has more of probability than the rest, is to the effect that the Committee will confine their charges and specifications to the acts of Mr. JOHNSON in attempting to gain possession of the War Office, and disregarding the law to the contrary. This, if correct, takes the offender upon his own ground, and puts him at once upon his defense in the alleged invalidity of the law. When he undertakes to establish that defense simply by force of the argument of counsel, and unsustained by competent and timely judicial decisions, he may begin to realize his exact position. The Court of Impeachment takes cognizance only of facts, of enacted laws and of their established judicial interpretations. And any defense outside of these will be of no avail.

MR. SHERMAN yesterday reported from the Finance Committee of the Senate an amended bill providing for the funding of the national debt. In view of the tide of public opinion setting in against the discharge of the obligations of the Government in gold, Mr. SHERMAN'S plan of redemption will prove popular and find favor with many Democrats and Republicans. He claims that the public faith would not be weakened, inasmuch as every dollar of debt will be paid with interest, in that sort of money which is acknowledged by all classes as the currency of the country. He believes something must be done to lighten the burdens left by the war to weigh down industrial interests, and, while his bill does not contemplate injustice to the bondholder so much as justice to the people, he urges that it should be favorably acted upon by Congress. He takes the ground that the obligations entered into in the name of the Government by its officials, while Congress was not in session, are not binding—the Government not being responsible for the representation of its agents—and that to redeem five-twenties in any currency but that in which they were bought, would prove fatal to every commercial and financial interest, depreciating public securities and pressing with tenfold inconvenience the masses of the people.

—Correspondence from Buenos Ayres (in the Argentine Republic, South America,) to the 13th, states that Major-General Asboth, American Minister resident there, is lying very ill, and certainly could not survive many days. He had long been an invalid and a great sufferer. Some of the chief judges and lawyers and many of the principal merchants of the city have been victims of the cholera. The pestilence carried off in Buenos Ayres in forty days five thousand persons. All work is suspended, and those who depend for food upon their daily labor are suffering. Carts enough to convey the dead cannot be found, nor men to dig graves. The churches have been taken for hospitals, and many who are unable to be conveyed to them die alone in their houses.

—The New York Constitutional Convention voted yesterday to submit the question of negro suffrage separately at the election on the new Constitution.

Attempt to Assassinate President Juarez—American Claims Ignored.

[By Telegraph to the Pittsburgh Gazette.]

HAVANA, Feb. 27.—Among the passengers on the steamship Georgia, which arrived to-day from Vera Cruz, are Gen. Sturm and Lieut. Col. Proudfoot, Commander of the American Legion in Mexico, and Mr. Alexandre, of Vera Cruz and New York Steamship Line. The Georgia brings a rumor that a telegram was received at Vera Cruz stating that two Mexicans from Havana had made an attempt to assassinate President Juarez and rob the Treasury. There was no opportunity of ascertaining what foundation there might be for this rumor before the steamer left Vera Cruz.

It is reported the Mexican Treasury was buying in English and Spanish claims and ignoring American demands, though these proceedings were against the will of Romero, who was powerless to prevent them.

Funding of the Public Debt.

Bill Reported in the Senate.

Speech by Senator Sherman.

Greenbacks for Bonds

Nitro-Glycerine Sensation.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, Feb. 27, 1867.

SENATE.

Mr. PATTERSON presented a petition of army officers in Tennessee against the passage of Mr. Wilson's bill relative to commutation of pay. Referred.

Mr. CHANDLER, from the Committee on Commerce, reported favorably the joint resolution relative to a survey of the Northern and Northwestern lakes. Passed.

Mr. RAMSEY introduced a bill for the relief of persons in the military and naval service of the United States who may have instituted claims to public lands under the homestead laws. Referred.

The Senate took up the bill permitting the Western Pacific Railroad to occupy a portion of Goat Island, in San Francisco harbor, for a depot, and to construct a railroad to Stockton. It was debated at some length and laid over.

Mr. THAYER introduced a bill to dissolve the Indian Peace Commission. Referred.

Mr. SHERMAN, from the Committee on Finance, reported an amended bill for funding the national debt.

Mr. SHERMAN said the House of Representatives was now engaged in considering the best way of lightening the burdens of taxation, and the Senate Finance Committee had been as anxiously engaged in considering the best way of lightening the burden of the public debt, and have therefore reported this bill after the most careful consideration. In reporting it he appealed to no political basis. The Committee consider it above all things essential to preserve inviolate the public faith. We have a right to take from our people money sufficient to carry on the government of the country and redeem its obligations. In every community the mass of mankind depend on daily labor. It is our duty to protect them in the enjoyment of the fruits of labor. We have endeavored to reduce the rate of interest and provide for a speedy resumption of specie payments. There are now $514,280,500 of the first issue 5-20's bonds falling due, on the second issue $129,423,800 falling due in 1869, and $482,910,502 in 1870, of the 7-30's $480,000,000. The total of bonds which are now redeemable, or will be in five years, is $1,719,500,000. The first question is now, are we prepared to redeem these bonds? It has already been made a political issue as to when the 5-20s will be redeemed. From Democratic and Republican sources alike the declaration has been made that these bonds shall be paid in greenbacks. Great masses of men have come to the same conclusion. It will be made the basis of the great political contest next fall, and is now the subject of more general discussion than any other. Two years ago this question should have been settled. He believed it could have been settled then. He would refer to his speech on this subject made at a former session, and requested his friend, the Senator from Oregon, (Mr. Williams) to read it.

Mr. SHERMAN proceeded and said it would have been wiser then to take the steps which he had suggested, but the whole country was in favor of the idea enunciated by Mr. McCulloch, of contracting the currency to arrive at specie payment, and nothing was said about funding [illegible] contracted the currency $160,000,000 in two years. He (Mr. McCulloch) believed there was no other way of getting out of the difficulty but by contraction. What has been the result? Gold has advanced and has never reached the figures at which it stood at the passage of the contraction act, and we are no nearer specie payments. The state of the money market from that day to this warrants the assumption that if the funding principle had been adopted, the financial condition of the country would be to-day vastly different and improved.

Mr. SHERMAN went on to argue that it was true the agents of the Government represented that the principal of the 5-20's was payable in coin. It was said Congress acquiesced in this contract. But Congress was not in session at the time and not responsible for the representation of Government agents. The prospect of paying off the 5-20's by a new issue of greenbacks was plausible, but a dangerous and unlawful scheme—a plain and palpable violation of the guarantees given by the Government. To redeem these 5-20's in any currency, but that in which they were bought would be fatal to every financial and commercial interest. It would depreciate public securities by inflating the currency, and press with tenfold inconvenience on the masses of the people. He was satisfied the safest and wisest way was to redeem these bonds after five years in the same money which was in circulation at the time they were issued. Every State in the Union, except Massachusetts, has recognized this principle.

Mr. DIXON objected in behalf of Connecticut.

Mr. SHERMAN continued. The question might be asked, how will you get money enough to pay off these bonds? He would reply, issue other bonds at a lower rate of interest, and offer them to the holders of 5-20s, at their option, at five per cent. at the same time. In the future holders of these new bonds could, after return to specie payments, receive their interest in coin. This proposition, made by the Finance Committee, was in accordance with the course pursued in England on half a dozen occasions.

Mr. SHERMAN went on to argue that five per cent. was as low a rate of interest as the Government could offer with a chance of procuring money. The rapid development of the country made a constant demand for a medium of exchange, and the only way to sell bonds at a lower rate of interest would be to increase the greenback currency and depreciate its value by postponing the payment of the principal to an indefinite period. He maintained that they could decrease the rate from six to five per cent. without adding a single greenback to the present volume. The Committee agree to fix the amount for the payment of the principal debt at $130,000,000. He believed the debt would be entirely liquidated about the year 1902, or in thirty or forty years from now. The proposed funding would place both the holder and bond holder on the same footing in speculation and still the injustice and discrimination made against the general mass of people and in favor of the bond holders.

Mr. Sherman's speech was attentively listened to b the Senate

Mr. CATTELL, as a member of the Committee on Finance, said he did not approve of any proposition which would take from the bondholder absolute power to insist on the letter of his bond.

Mr. SHERMAN disclaimed any intention to commit any other member of the Committee to his views.

The Senate passed the joint resolution to provide for the issue of clothing to soldiers and others to replace clothing destroyed to prevent contagion.

On motion of Mr. EDMUNDS the Senate took up the joint resolution directing certain moneys in the hands of the Treasurer of the United States, as proceeds of captured and abandoned property, to be covered by a warrant into the Treasury.

The question was on the substitute of Mr. Edmunds, directing that all such moneys received under color of acts of Congress be covered into the Treasury, with the interest that may have accrued; also providing for punishment for neglect or refusal by fine and imprisonment. The amendment was agreed to.

Mr. EDMUNDS offered another amendment, providing that a sum of the proceeds, not exceeding $100,000, be appropriated for the payment of necessary expenses for the collection and disposition of property by the Secretary of the Treasury, or in suits brought against him for his agency therein.

Messrs. TRUMBULL and STEWART opposed the amendment as placing too much discretion in the hands of the Secretary of the Treasury.

Messrs. EDMUNDS, FESSENDEN and SHERMAN advocated it, Mr. EDMUNDS explaining that the Secretary of the Treasury was liable continually to suits brought against him or his agents on grounds of illegal seizures.

Mr. HOWE thought there should be a distinction made between suits brought against special agents. He would not admit that the Government should defend the latter in all cases. He thought the Committee should give the names of such agents.

Mr. EDWARDS—We can give them to you to-morrow.

Mr. HOWE further opposed the bill, when Mr. HENDRICKS said he would like to know something more about these suits before the resolution was passed, and proposed adjournment, which, after debate, was carried.

Adjourned.

HOUSE OF REPRESENTATIVES.

Mr. BOUTWELL, from Committee to report Articles of Impeachment against President Johnson, offered a resolution permitting the Committee to report in print. Adopted.

Mr. MOORHEAD, from Committee of Ways and Means, reported back Mr. Spalding's bill declaring the meaning of the Internal Revenue tax on railroad chairs and spikes to be a specific tax of five dollars per ton, which passed.

Mr. COOK, from the Committee on Roads and Canals, reported a bill authorizing the building of a bridge over the Ohio to railroad company on the same terms as provided for a bridge at Quincy, Illinois, which passed.

Mr. DODGE reported a bill authorizing the building of railroad bridges over the Ohio River above the mouth of Licking River.

The SPEAKER presented several communications, including resolutions of the South Carolina Convention asking an appropriation of a million dollars for the purchase of land for freedmen, etc., and of the National Commercial Convention, recently held at Boston, on finance, taxation, etc., which were referred.

The House went into Committee of the Whole, Mr SCOFIELD in the chair, and resumed the consideration of the sundry civil expense appropriation bill.

After debate, Mr. Churchill's amendment, directing the six revenue cutters on the lakes to be laid up, was agreed to, with the understanding that it be voted on by yeas and nays in the House.

On motion of Mr. O'NEIL, supported by Messrs. STEVENS and KELLY, and after a hard struggle with Mr. WASHBURNE, of Ills., the item for the construction of appraisers' stores at Philadelphia was increased from $25,000 to $75,000.

Mr. BAUM, sustained by Mr. LOGAN, tried to have an appropriation of $50,000 inserted for the Custom House and Post office building at Cairo, but Mr. WASHBUNE'S opposition was more successful than in the Philadelphia case and the amendment was rejected.

On motion of Mr. DODGE, sustained by Mr. WILSON, of Iowa, and after another struggle with Mr. WASHBURNE, the item of fifteen thousand dollars for the construction of a Court House, in Des Moines, Iowa, was increased to ninety-eight thousand dollars.

Mr. HOPKINS moved to increase the appropriation for a Court House at Madison, Wisconsin, from twenty-five thousand to fifty thousand dollars.

Mr. WASHBURNE opposed it, remarking, however, there seemed to be a combination among the members from various localities to increase the appropriations which the Committee had recommended, and that his opposition would be ineffectual.

Mr. LOGAN insisted that when the construction of buildings was commenced, it was not economy to refuse to appropriate money to complete them, and referred to the fact that liberal appropriations had been made in past years for buildings in Galena.

Mr. WASHBURNE suggested the money was well laid out, and if not thus expended would probably have been stolen.

Mr. HOPKINS' amendment was agreed to.

Mr. BARNES moved to appropriate $10,000 for procuring a site for a Postoffice and Court House in Brooklyn, but on objection by Mr. WASHBURNE, it was ruled out of order, there being no law for it.

On motion of Mr. M'CULLOM, supported by Messrs. BURR and BLAINE, and opposed by Mr. WASHBURNE, the item for the construction of a Court House in Springfield, Illinois, was increased from $15,000 to $25,000.

Mr. RAUM renewed his proposition of $50,000 for a Postoffice and Custom House at Cairo, and succeeded in getting the appropriation of $50,000 made.

Mr. PRICE, making some remarks about the "trimming" and "tinsel" of the Treasury Department, moved to [illegible] of the Treasury, a motion which Mr. BLAINE denounced as the heighth of absurdity.

A compliment to which Mr. PRICE responded by saying as soon as he reached perfection he would move to the State of Maine and run for Congress. [Laughter.]

Mr. LAWRENCE, of Ohio, took the same view as Mr. Price, and sustained the amendment.

The discussion might have gone on for an hour or two had not Mr. WASHBURNE taken steps to close all debate in reference to the Treasury building by bringing the Committee to vote on Mr. Price's amendment. It was rejected.

Mr. LAWRENCE, of Ohio, tried to get an item of $25,000 for an Arsenal at Columbus, Ohio, but was ruled out of order.

Mr. SELEYE moved to strike out the item of ten thousand dollars for constructing work on the capitol extension, and it was struck out, as was also the five thousand dollars for the dome.

Mr. LAWRENCE, of Ohio, moved to strike out the item of two hundred and eleven thousand dollars for the Metropolitan Police for the District of Columbia, and made a statement to the effect that within the last six years Congress had appropriated nearly three hundred thousand dollars for a purpose purely local, while there was not a city in the Union where taxes were so low as in the City of Washington, nor rents so high. [Laughter.]

While the question was under consideration the SPEAKER took the chair and stated he had just received from the Superintendent of the Metropolitan Police a letter, sent him from the Superintendent of the New York Police, making so grave a charge that he did not feel justified in withholding it from the immediate knowledge of the House. The letter read as follows:

Office Superintendent Metropolitan Police, New York, February 26, 1868—Maj. A. C. Richards, Superintendent Metropolitan Police, Washington, D. C.—Dear Sir:—I have just been called upon by Col. Tal. P. Shaffner, President of the United States Blasting Oil Company, with a request to look up five cans of nitro-glycerine which were delivered on an order from a regular customer, but which order is now pronounced to be a forgery. The quantity of the oil in the cans was about one hundred and sixty-five pounds, a quantity sufficient to blow up the St. Nicholas Hotel in New York. He fears it may have been obtained in the way it was for some foul purpose, as he lately has had several applications by unknown persons for the purchase of the article, to whom he refused to sell, owing to their being strangers and would not explain satisfactorily the purpose for which they wanted it. He informs me that although it was given out that the stone walls of Clerkenwell prison were blown down with gunpowder, the material used was glycerine. Now, sir, this one hundred and sixty-five pounds has disappeared from New York, and if intended for mischief, it is more likely intended for use in Washington than elsewhere. I give you this information to put you on guard.

Very respectfully,
JOHN A. KENNEDY,
Sup't Metropolitan Police.

When the paper was read Mr. INGERSOLL said—Let us abolish the Metropolitan Police and see whether we will not soon be blown up. [Laughter.]

Mr. SPALDING moved to adjourn.

Mr. WASHBURNE moved the House again go into Committee. Mr. LAWRENCE'S admendment was rejected, and Committee rose.

Mr. COBB presented a resolution of the Wisconsin Legislature, in reference to the project of connecting by navigable channels the waters of the Mississippi and Lake Michigan. Referred to Committee on Commerce.

Adjourned.

Kilpatrick and Thomas bring suit against the Thames Insurance Company, of Cincinnati, for $5,000 damages, growing out of the burning of the steamer Magnolia here in 1866. The case involves $100,000, $30,000 in Cincinnati companies, $15,000 in St. Louis and $50,000 in foreign companies represented there. A deposition from Mr. Strader, one of the pilots of the Magnolia, was read, to the effect that Marshall offered him (Strader) five thousand dollars to sink the steamer. Mr. Merrick, as counsel for Adjutant General Thomas, has filed a declaration in the Supreme Court of the District of Columbia bringing suit against Secretary Stanton for false imprisonment, laying damages at $50,000, and charging Mr. Stanton, among other things, with contriving and wickedly, falsely and maliciously intending to hurt, injure and aggrieve plaintiff without reasonable and probable cause.

The counsel of Gen. Thomas have decided to make application for a writ of *quo warranto*, before the District Court, for Stanton to show cause why he retains possession of the War Department.

THE WAR OFFICE.

Gen. Thomas called at the War Department about eleven o'clock this morning and received his private mails, but proceeded to do nothing further beyond repairing to the room of Gen. Schriver, where he remained some time. Secretary Stanton was in his room at the time, but no interview took place between him and Gen. Thomas.

The sixth article has not been completed. The Committee do not take up any act of the President prior to the removal of Mr. Stanton.

The Committee expect to report in time to be ready for the Senate by next Monday.

Another dispatch states that the House Impeachment Committee met this morning and had under consideration matters on which it is proposed to present articles of impeachment. Another meeting was held at three o'clock and considerable progress made. The Committee did not examine any witnesses during the [illegible] a meeting and nearly completed the preparation of articles, which will probably be finished and submitted to a full Committee to morrow. If agreed upon they will be printed and the Committee will then print them and report to the House during the afternoon.

The following nominations were made by the District meetings here: First Congressional District, John A. French; Second District, Colonel David Healon; Fourth District, Colonel J. Deweese. It is said J. K. Harris, negro, was first nominated, but declined, giving as a reason that the Radicals in Congress did not wish negros to be elected to that body.

Mr. Botts said if the President had been impeached a year ago, there would be no necessity for a convention now. A Complicated Case.

Another mixed up case transpired yesterday, in the way of criminal prosecutions, of which we have the following facts: The proprietor of a hosiery store on Wylie street, made information against Barbara Mooney, a resident of Bedford avenue, for larceny, against John Mooney for felonious assault and battery, and against Matthew Manees and Mary, his wife, for receiving stolen goods. The deponent alleges that on Wednesday night Mrs. Mooney came to his store ostensibly to make some purchases, and when she had gone, he missed a shirt and handkerchief from his stock, which she had not purchased, and which, together, were worth four dollars and seventy-five cents. He proceeded to her residence yesterday morning to see about the matter, when he was set upon by John Mooney and severely beaten with a poker. He ascertained, however, that the alleged stolen articles had been deposited at the house of the Manees, and procuring a search warrant, went there to find them. All knowledge of the articles was denied by search revealed them in a bureau drawer. At this Mrs. Mooney drew forth various other articles from the bureau, such as shirts, socks, &c., and declared that the deponent was in the habit of visiting her, and had given her the articles mentioned. All the defendants were arrested and bail required for a hearing this morning, which the woman obtained, but the men were committed in default.

Meanwhile Hester Dence, a friend of all the defendants, who had accompanied them as a witness, repaired to Alderman Strain's office and made information against the man charging him with adultery, alleged to have been committed with Barbara Mooney. The accused prosecutor was arrested, and gave bail for a hearing this morning. He had scarcely departed when Barbara Mooney herself appeared and made information against the same defendant, charging him with a like offense committed last fall with one Lew Evans. On this charge, too, the accused was arrested and held for a hearing.

Longaker, Esq., Secretary of the State Agricultural Society, soliciting a proposal from the Allegheny County Society in regard to holding the State Fair here, and stating that the places competing are Williamsport, Erie, Pottsville, Norristown, Lancaster and Doylestown.

On motion of Mr. Jennings, referred to Committee on Fair Grounds, with power to act.

Accident—Trains Delayed.

The Cincinnati Express west on the Pennsylvania Railroad met with an accident Wednesday night, at Newton, by which all the trains of yesterday were delayed several hours. The truck came out from under one of the passenger cars, and three of the coaches were thrown from the track. No person was injured, and the cars sustained comparatively slight damage. Fortunately the engine broke loose from the train and ran ahead. It had gone but a short distance when the engineer saw the Philadelphia Express train east approaching at full speed. He stopped his own engine, ran on ahead and succeeded in stopping the advancing train. The trains pass at this point, and the action of the engineer, it is presumed, prevented a terrible accident, as the approaching train would have run into the wrecked train, the effects of which could scarcely be imagined.

The Parentage of Grant.

In his letters to the New York *Tribune* the father of Gen. Grant says:

"Mrs. Grant (my wife) was the second daughter of Mr. John Simpson of Montgomery county, Pennsylvania. She was born and brought up in that county, about twenty miles from Philadelphia. When in her nineteenth year she removed with her father to Clermont county, Ohio. The family were very highly respected; people of veracity and integrity; but not of any particular ambition beyond that of living independent farmers.

"I was born in Westmoreland county, Pennsylvania, January 23, 1794. When I was five years of age, I was taken by my father, who emigrated with his family to that part of the northwestern territory which is now Columbiana county, Ohio. When I was ten years of age, we moved to Portage county, in the Western Reserve."

Dealing in Counterfeit Money.

Joseph Slavy yesterday made information against James Dick, proprietor of an eating saloon in the Diamond, charging him with passing counterfeit money. It is alleged that the deponent went to the saloon and gave in payment for something obtained there a genuine National Bank note of the value of twenty dollars, and received in change a counterfeit ten dollar note on the Highland Bank of New York. A warrant was issued.

Business Matters.

No one ever attended faithfully and sedulously to any matter of business when the vital organs were disordered to such an extent as to impair the general constitution. The main point of disease may be the Stomach and alimentary canal, or it may exhibit itself in pains in some part very remote therefrom, but you may be sure that there is some defective function not fulfilling the natural requirements of the physical organism.

We have all the while maintained that the blood is the Chief Source of disease, inasmuch as from it is produced and reproduced every organ and tissue engaged in the economy of life and health. If it, the blood, contains the elementary principles requisite to the reorganization or reproduction of decaying or diseased parts; and if the worn-out matter of the human system be punctually carried out of it, there must be health and vigor of body and mind. Disease cannot find root amid such a state of things. It will be overthrown and the perfect empire of health will reign in its stead. DR. KEYSER'S BLOOD SEARCHER is the greatest invigorant of the blood, of the stomach, of the bowels, of the kidneys, and, in fact, of every organ concerned in the living being. Weak nerves give place to it. Impaired appetite is restored; old diseases of whatever sort are completely driven out, and under its persistent use the return of health and energy are sure to come. Let any one now try a few bottles of this wonderful remedy, and all that we have said time and again of its curative and renewing powers will be more than realized.

Sold by the gross, dozen, or single bottle, at the Doctor's Great Medicine Depot. Dr. Keyser's consultation rooms, for troublesome chronic diseases, 120 Penn street, from 9 A. M. to 4 P. M.

Canst thou not minister to a mind diseased,
And with some sweet, oblivious antidote,
Cleanse the foul bosom of the perilous stuff
That weighs upon the heart?

Certainly; Plantation Bitters will do it when nothing else will. Melancholy, Depression, Hypochondria, Insanity, all spring, more or less, from a diseased stomach, and this, Plantation Bitters is a sure cure for. There is no mistake about it; Dyspepsia, Headache, Dullness, Ague, and Low Spirits must yield to the health giving and genial influence of the Plantation Bitters. If you are in doubt, make one trial and be convinced. Thus say those who know.

THE CRISIS AND ITS SOLUTION.

It would be a grave error to take it for granted that the events of the last week at Washington have so deeply moved the public feeling solely in consequence of their merely political, partizan significance. The people realize, as they have for months perceived, that their most vitally material interests have become so involved in the political emergencies which a reckless, passionate and ambitious man in the Executive chair has within two years multiplied upon the country, that nothing but a speedy and decisive termination of that bad influence and of his destructive administration can afford adequate and lasting relief.

Never before in our national experience have we known a crisis—certainly none like the present—in which the mere partizan politician has found the great business elements of the country, its leading material interests, its labor, capital, manufactures and agriculture, not only sustaining, but demanding the most radical and thorough change in the existing political status. The elements of which we speak are essentially conservative in their nature. It is seldom that they are progressive in their demands. Stability, certainty and repose constitute the only sure basis of commercial and financial prosperity, and any political crisis which threatens a conflict with these principles is for that reason not only foreseen with a peculiar sagacity, but its advent has ever hitherto been marked by an instant derangement of the business of society in all of its departments.

Yet now, political events, of an importance never before matched in the history of the republic, are in progress—a progress so rapid that but a month or two will witness their culmination—events which test the strength of our fundamental polity, which shall establish or annul every provision made by the fathers for the internal peace, the material prosperity and the progress of the republic in its high political mission—events which, in their very nature, will search every fibre and vein of our political constitution, straining the weak points and subjecting all to the highest capital test, the *experimentum crucis* of the Republic, and yet, instead of a paralysis of business, with labor sent adrift, manufactures suspended, capital withdrawn instantly to secret hoards, and an universal stagnation of industrial activity, the people of the United States may behold, some of them with astonishment, a directly opposite condition of affairs. Capital, the life-blood of the body-politic, which alone can give strength and efficiency to the arm of labor, or sustain the busy brain of enterprise, sees but encouragement in the passing events, and welcomes, the sooner the better, the hour which shall find the nation delivered from its misgovernment.

Partizans may wish to obstruct the course of National Justice by denying the guilt of the great offender, or releasing him from the proper punishment, but all their clamorous protests and passionate menaces will prove ineffective to disturb the public peace or to delay the rapid return of all our national interests to a prosperous activity. No matter how loudly the apologists for treason in high places may declaim or even dare to threaten, the present political exigency, its passing dangers and its peaceful and auspicious issue are clearly understood by financiers and have been already discounted in the money markets of the world. Money grows cheaper day by day in Wall street, and the bonded debt of the Union, the financial credit of the Nation, is appreciating in value among the capitalists of Europe.

All this simply means that a class of men, who, by common consent, are adpractical sagacity, and whose voice has been completely potential, in all modern times, in the success or ruin of States, are now looking on the whole movement at Washington as significant of a promise for the early and final restoration of quiet, rest and prosperity to our country. They see reconstruction completed, the South re-united with us at last, in bonds for the first time indissoluble since among them there is no longer an unsound link; they see a federal government once more harmonious in all its parts, and all working together for the general good; they see our industry once more protected, our labor once more busily occupied, our outgoings and our incomings of revenue administered with integrity and success; they see a cordially united people no longer disquieted, and its material activity checked, by vague but chilling apprehensions of public disaster; they see that people again devoted to all the varied pursuits of private industry, and they see, too, that, with the final and acceptable adjustment of all questions of politics, the ten States lately in rebellion and hitherto overwhelmed in public disaster and private, social distress, once more bringing back to the republic an area equal to one third of its inhabited territory, adding eight millions of people to its industrial strength, with renewed encouragement to labor in the development of all their resources. They see that although cotton is never to be king again, yet that free labor, the only crowned honor known to our people, will speedily restore to us that great source of our former productive wealth, so that the circling and swelling currents of international commerce shall once more find us gainers and not losers in the markets of the world.

Should we wonder then, that finance, trade, manufactures and labor stand ready to welcome the advent of a healthier epoch in the national politics?

WESTERN REPUBLICANS ON CURRENCY AND TAXATION.

The Republicans of Indiana, in their State Convention last week, resolved with entire unanimity, that all property should bear a just proportion of the burden of taxation; that the public debt should be honestly met, and that all bonds should be paid in legal-tenders, or greenbacks, except when an express contract has provided otherwise, and with due regard to the proper volume of the currency. They also resolved against contraction, and for the supply of the deficiency of legal-tender currency to the extent required by the business wants of the country.

The Republicans of Ohio will hold their State Convention on the 4th of March, when the same questions will come up for consideration, and, it is not unlikely, will be met by similar resolutions. At the primary meetings for appointment of delegates in many of the Ohio counties, as well as in the editorials of not a few of the local Republican journals, special attention has been already given to the subject. In Logan county, for example, the resolutions, drawn up by Attorney General West, deprecate every form of repudiation, favor the substitution for the present public obligations of "another class of securities which shall be subject to their equal proportion of the public burden," and advocating a supply of currency adequate to the wants of the country, which, "to the extent consistent with its express stipulations, should be made receivable as coin, alike on account of private dues and public obligations."

While the expression of opinion has in nearly all cases been equally favorable to the position taken in Indiana, we notice among a few of our Ohio exchanges a decidedly spirited opposition to what is denounced as an endorsement of the Pendletonian theory. But the advocates of no contraction, of equalized taxation and of the redemption of the Five-Twenties in legal-tenders, under proper regulations as required by the interests of business, will be materially strengthened by the success of Gen. Beatty, whose large majority in the late special election in the VIIIth Congressional District is admitted to have been in part, if not wholly, due to his similar position on these questions.

These indications show the strong probability that the Ohio Republicans will join their Indiana brethren on these questions. In both of those States these questions have been made for obvious reasons leading topics for popular discussion of late, and it is our own duty as journalists to note the position to which our friends in those States are evidently tending.

A CASE IN POINT—RIGHTS OF NEGRO SOLDIERS.

An impregnable ground upon which it is claimed that negroes in the South should have the right of suffrage, is that they stood loyal to the flag of the free against their traitorous masters in the late rebellion, and for this reason should have power to preserve what they helped to defend. They are now constitutionally free, but their freedom will be but a mockery if not allowed to protect it by the ballot.

The following *Virginia statute* of October, 1783, found in Henning's Statutes at Large, Vol. xi, page 308, needs no comment. Intelligent readers can fit it to more than one of the events of the last seven years.

"WHEREAS, It hath been represented to the present General Assembly that during the course of the war (of the Revolution) many persons in this State had caused their slaves to enlist in certain regiments, or corps, raised within the same, having tendered such slaves to the officers appointed to recruit forces within the State as substitutes for free persons, whose lot or duty it was to serve in such regiments or corps, at the same time representing to such recruiting officers that the slaves so enlisted by their direction and concurrence, were free; and it further appearing to this Assembly that, on the expiration of the term of enlistment of such slaves, their former owners have attempted again to force them to return to a state of servitude, contrary to the principles of justice and to their own solemn promise. And whereas, it appears just and reasonable that all persons enlisted as aforesaid, who have faithfully served agreeable to the terms of their enlistment, and have thereby, of course, contributed towards the establishment of American Liberty and Independence, should enjoy the blessings of freedom as a reward for their toils and labors,

"*Be it therefore enacted*, That such and every slave who served as aforesaid, shall, from and after the passing of this Act, be fully and completely emancipated, and shall be held and deemed free: and the Attorney General of the Commonwealth is hereby required to sue *in forma pauperis* for the freedom of every such person, and if found entitled to freedom a jury shall be empannelled to assess his damages."

NEW PUBLICATIONS.

OLD FRITZ AND THE NEW ERA. By L. Muhlbach, author of "The Empress Josephine," "Marie Antoinette," etc. Translated from the German by Peter Langley. Complete in one volume. Illustrated by Gaston Fay. New York: D. Appleton & Co. Pittsburgh: Henry Miner.

Like all the historical romances which have already appeared from this gifted author, "Old Fritz" is entertaining and piquant. History is presented in a pictorial and dramatic form, and many historical facts are woven together in words of beauty and grace. The characters in her romances are wrought out with such distinctness and point, as to render her works both interesting and instructive. In this volume we have Germany pictured in storm and stress. The reader will be charmed by the style of this popular writer, and each page will only serve to increase this feeling.

SKETCHES BY "BOZ." Containing fifty-eight sketches. Comprising Seven Sketches from our Parish—Scenes—Characters—Tales—The Public Life of Mr. Tulrumble, once Mayor of Mudfog—Pantomime of Life, etc. By Charles Dickens. People's Edition. With illustrations by Cruikshank. Philadelphia: T. B. Peterson & Brother. W. A. Gildenfenny.

were written and published when Dickens was quite a young man. They are really among his first attempts at authorship. They gave Dickens a reputation at the time, though but a young man. Every phase of human life is presented, especially some of the dark pictures of humanity. Like all his writings they are graphic and full of interest. As we have frequently commended this edition for its substantial merits, we need only state further that this is the sixteenth volume of the People's Edition of the great novelist's works.

MY SON'S WIFE. By the author of "Caste," "Mr. Arle," &c., &c. Published by T. B. Peterson & Brothers, Philadelphia. For sale by W. A. Gildenfenny, 45 Fifth street, Pittsburgh.

There is a vein or cheerfulness running through this volume which makes it quite readable. The story seems to possess both point of plot, and also considerable skill in construction. The leading characters are drawn to life, and with much force and beauty. High literary authority assigns "My Son's Wife" worthy of the first rank of novels. We anticipate a large sale, as the author of "Caste" is so well known that the mere announcement of a new work is sufficient. The book is well printed and substantially bound.

THE ELEMENTS OF PHYSIOLOGY AND HYGIENE.—A text book for Educational Institutions. By Thomas H. Huxley, LL. D., F. R. S., and William Jay Youmans, M. D., with numerous illustrations. New York: D. Appleton & Co. Pittsburgh: Henry Miner.

The work is valuable in many respects. It is written in plain and concise language, and so happily arranged in sections, that the student can more rapidly comprehend it. Its condensed form, too, adds to the value of the work, and also the fact, that the latest investigations are embodied. The body of the work by Professor Huxley, is the result of his laborous researches. The department of Hygiene, by Dr. Youmans, in both its bodily and mental aspects, is presented in an attractive and instructive form, and cannot fail to be useful. Students will find this work valuable, and worthy of the encomiums of praise awarded it.

PILGRIM STREET. A Story of Manchester Life. By the author of "Jessica's First Prayer," etc. Boston: Published by Henry Hoyt. For sale by Davis, Clarke & Co., Pittsburgh.

"Pilgrim Street" is one of the beautiful Sunday School Series of Juvenile Religious works issued by this excellent publishing house. It is written in charming style, and must be a favorite with young folks. The healthy glow which fill its pages are in striking contrast with some of the trashy works issuing from the press. "Phil" and "Tom Haslam," the central characters, are touchingly drawn, and full of life. The transition of the latter from crime to a pure life is well told. The book is elegantly bound.

THE BOY'S VICTORY. Published by Henry Hoyt, Boston. For sale by Davis, Clarke & Co., Pittsburgh.

This re-publication from the Religious Tract Society, is also one of the Sunday School Series, of the character of "Pilgrim Street." The story of "Ludovic," from his youth up to his entrance into the ministry, cannot fail to interest youthful readers, especially boys. In striking contrast we have presented his associate, the impulsive and generous hearted John Henderson, who exhibited such manly virtues in his youth, and when he reached manhood illustrated in his mature life a broad and generous nature. There are other characters that render this little volume very attractive.

THE DOOR WITHOUT A KNOCKER. Published by Henry Hoyt, No. 9 Cornhill, Boston. For sale by Davis, Clarke & Co., 93 Wood street, Pittsburgh.

This little book, like "Pilgrim Street," and "The Boy's Victory," forms a part of the School Series by Mr. Hoyt. It is full of healthful thoughts for the youthful mind, and cannot fail to interest, as well as entertain. Quite a charming little story, entitled "The Use of a Child," fills a number of the closing pages. Such works as these commend themselves by the purity of their style and high toned morality.

D. APPLETON & Co., of New York, have sent us "Barnaby Rudge," cheap pamphlet edition, at 30 cents. This series is printed in clear type, and convenient size. The series of eighteen volumes will be furnished at $4,50, and also a steel-plate portrait of Charles Dickens. From the same publishers we have received the first book of the Waverly Novels, entitled "Waverly," at 25 cents each, or $6,00 for the set of twenty-five volumes. Waverly, like the cheap edition of Dickens, is well printed and portable. Henry Miner, 71 and 73 Fifth street, can supply these works.

PETERSON & BROTHERS, of Philadelphia, have just issued the "Old Curiosity Shop" of their cheap edition of Dickens, 25 cents each volume, or $5,00 a set. The second book of the new edition of the "Waverly Novels," by this house, is also just out, entitled "Ivanhoe." Both of these publications are gotten up in good style, and at a low price. Their cheapness and being printed on excellent paper and clear type, will doubtless attract many buyers. Gildenfenney, 45 Fifth street, can supply either of these volumes.

THE London *Standard* having, besides a lingering fancy for rebel loans, a decided grudge, based on Alabama and Fenian questions, against America, thus bids farewell to Mr. C. F. Adams, a man who would command respect and praise even from a mortal enemy:

"If Mr. Adams is going back to America, he takes our good wishes with him. Amidst the crowd of empty talkers, emptier thinkers, would-be statesmen, and half-bred politicians, who seem now to be having it all their own way in the North and South, Mr. Adams will stand pre-eminent *facile princeps*, by virtue not only of his birth and superior culture, but by his advantage in all the qualities which make men rightfully rulers over their fellows."

THE MISERABLES

Of this bright and cheerful world ARE THE DYSPEPTICS. Without a good digestion there can neither be bodily comfort nor mental enjoyment. Between the stomach and the brain there is a close and wonderful alliance. If the one is disordered the other is gloomy, dejected, incapable of effort, and indifferent to all that makes life agreeable to the healthy.

Is this a condition that any rational human being is willing to endure, when the means of certain, immediate and permanent relief can be obtained everywhere?

The Dyspeptic has his fate in his own hands. If he chooses to banish forever the disorder that racks his body and disturbs the mind with nameless horrors, he has only to step to the nearest drug store and procure a supply of HOSTETTER'S STOMACH BITTERS.

No phase of Dyspepsia has ever yet resisted the alterative, tonic and antibilious operation of this potent vegetable specific. It literally regenerates the lethargic stomach; rouses into healthy action the dormant liver; puts to flight the dismal fancies that beset the mind; gently relieves and regulates the bowels; strengthens the enfeebled nerves; restores the appetite and makes, as it were, a new creature of the desponding and debilitated invalid.

Ladies who suffer from indigestion have only to take a small dose of this pure vegetable corrective, once or twice a day, to secure entire exemption from the pains and penalties of a weak stomach and that perfect functional regularity which but few of the sex uninterruptedly enjoy.

Chronic Diseases.

The functions of the human body give way, usually one at a time. A disordered liver, or a slight irritation of the bronchial tubes, an obstruction in the skin or of the renal organs, are sure to be followed by pains and aches in various parts, according to the extent of the organic or functional injury. A man afflicted with dyspepsia will soon find more than the stomach at fault. The food that he swallows fails to renew the natural wear and waste, the worn out matter is deposited in some nook or cranney, where it causes irritation or pain, when it ought to be thrown off and carried out of the system. Hundreds and thousands of just such sufferers have been relieved and restored to health and vigor by a few bottles of DR. KEYSER'S BLOOD SEARCHER, which not only imparts tone to the stomach and digestive organs, but likewise enriches the blood with the elementary principles needful to the restoration of the vital energy of the system. Be careful when you ask for it to get DR. KEYSER'S, for that is the kind, and the only kind, that has cured the numberless cases of disordered and broken constitutions. It was that which cured Mr. Boyd. It was that which cured John Titzell. It was that which cured Margaret McFarland. It was Dr. Keyser's Blood Searcher which cured all the old chronic cases which we have published from time to time in these columns. Dr. Keyser's Blood Searcher has cured more cases of chronic diseases than any medicine of recent origin. Sold by the gross, dozen, or single bottle, at the Doctor's great medicine store, No. 140 WOOD STREET. Dr. Keyser's consultations rooms, 120 Penn St. January 28th, 1868.

The forthcoming session of Congress promises to prove one of the most important held since the formation of the Government, and the proceedings will be anxiously watched by the intelligent masses. In view of the deep interest centered in the proceedings, the proprietors of the GAZETTE have made arrangements for daily dispatches and letters during the session, from a highly intelligent correspondent, who enjoys the confidence and friendship of the leading members of the Senate and House, the heads of the various Departments, and the leading politicians who frequent Washington, so that readers can depend on receiving the first, fullest and most reliable intelligence from the seat of Government.

The proceedings of the State Legislature, at its forthcoming session, will also prove interesting, inasmuch as many questions of importance will come up for legislation. The GAZETTE will keep at the State Capital, during the entire session, an intelligent and faithful correspondent, who will promptly report the proceedings by mail and telegraph.

It is the only political journal of Pittsburgh which faithfully reflects and steadily advocates the principles held by the Union Republican Party, and interpreted by a loyal Congress.

It gives as much reading matter as any paper sold at twelve dollars per annum, while its price is but eight, being the cheapest as well as the largest newspaper in the Commonwealth.

With the enlargement, every department has been strengthened. The high character of its editorial columns will be maintained, and all questions of public importance will be fearlessly discussed.

The news department will be kept up to the requirements of the day, and in condensed items will faithfully mirror all the transactions worthy of note of the City, State, Country and world at large, and maintain for the GAZETTE the reputation of a live, enterprising and first class family and commercial newspaper.

Ample space has been reserved for market reports, which can at all times be relied upon as correct, as the current quotations for manufactures, farm products, cattle, &c., &c., are daily gathered from actual sales, by faithful and efficient reporters.

The river news is collected with care, and will prove a very interesting feature of the GAZETTE.

The financial news department has been placed in charge of an able and experienced banker, who will render it quite an attractive and useful specialty to bankers, brokers and business men generally.

The religious department will receive the attention due its importance, and will be so conducted as to be pleasing and readable to members of all religious denominations.

The agricultural, art, science, literary, personal and other departments of the paper will be conducted in a manner which will prove satisfactory to the reader.

THE WEEKLY GAZETTE.

The WEEKLY GAZETTE has been enlarged to the same size as the Daily, and is now the largest, cheapest and best weekly family newspaper in the State. It should be in the house of every farmer, mechanic and business man. It gives each week forty solid columns of current news by telegraph and mail, the leading editorials of the daily, and a choice selection of literary and scientific items, together with everything important pertaining to the world of politics. Its agricultural columns will be edited in such a manner as to find favor with the farmer and gardener. The market reports of the WEEKLY GAZETTE are by common consent acknowledged to be the standard authority for both buyers and sellers, and in commercial circles in Western Pennsylvania, Eastern Ohio and Western Virginia are without equal. The files of the GAZETTE are used exclusively by the Civil Courts of Allegheny county, as reference in important issues, to determine the ruling prices in the markets at the time of the business transaction in dispute.

Our Agents will favor us by getting up their clubs at once, and not allowing their present ones to expire, as we are anxious that none of our readers should be deprived of a week's news. Additions to clubs can be made at any time, at yearly rates. Postmasters and Merchants are requested to act as Agents.

SECURITY AND COMFORT for THE TRAVELING COMMUNITY.

J. B. HARRIS' SAFETY FIRE JACKET, Car Heater and Moderator,

For SMOKE AND HOT AIR FLUES, dispensing with the use of stoves and Fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached.

Having obtained of the United States Letters Patent for a Safety Jacket which is warranted to resist the most intense heat that may be applied to it in the position and purpose for which it is intended. It is a sure protection from accidents by fire, originating from defective flues, or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stoves, dwellings, factories, ships, steam boats, railroad cars, &c., wherever pipes as conductors are made dangerous by being overheated, and security desired. I will sell, on application, rights to manufacture or to use the above invention; also, territorial rights, to such as may wish to engage in selling privileges, either by State or county.

A GREAT FAMILY CONVENIENCE.

A new and novel arrangement for having

HOT WATER BOILERS

attached to the back end of common cook stoves, so that the waste heat which goes up the stove-pipe heats all the water needed in an ordinary sized family, by passing the blaze directly through the boiler, which sits over the pipe hole of the stove. This new arrangement can be put on to any No. 7, 8 or 9 common Cooking Stove, of any manufacture. Any person having a TRIUMPH, VICTORY, BLACK OAK, BEAUTY or UNION STOVE, or almost any other Cook Stove made in the Union, can have Boilers attached to their Stoves, including the Attachment, the Boiler and Lids, and Bibb Cock, for the moderate cost of SEVEN DOLLARS, by applying to

THE
Central Pacific Railroad

The best and principal portion of the

NATIONAL TRUNK LINE ACROSS THE CONTINENT,

is being rapidly carried forward by an unprecedented working force; and it is reasonably certain that the CONTINUOUS OVERLAND RAILROAD CONNECTION FROM NEW YORK TO SAN FRANCISCO WILL BE MADE IN 1870.

The United States Government furnishes, upon a subordinate and contingent lien, half the means for constructing the Main Stem Line; and besides an absolute grant of 12,800 acres of valuable public lands per mile, the Central Pacific Railroad Company have received from California sources, donations and concessions worth more than $3,000,000. The available resources of this Company are therefore abundant for the purpose, amounting to $77,000,000 on the first 726 miles of the Line, including Loans secured by a First Mortgage upon the whole property, to the same amount only as the U. S. Subsidy Bonds.

The results already attained, although under comparatively unfavorable circumstances, afford substantial ground for believing the CENTRAL PACIFIC to be the

Most Favored, Productive and Valuable Railroad Enterprise in the Country.

In consequence of the large and rapidly increasing demand, the price of these Bonds has been advanced, and the Company are now offering for sale a limited amount of their

First Mortgage Six Per Cent. Bonds,

Principal and interest payable IN GOLD COIN, in sums of $1,000 each, at par and accrued interest from January 1st, in currency.

These Bonds, it is believed, possess the elements of safety, reliability and profit, in a greater degree, than any other class of Corporate Securities now offered, and are therefore very desirable for steady investments of surplus capital. Investors will bear in mind the following advantages:

I. They are the first mortgage on one of the most valuable and productive lines of railroad in the world.

II. The actual earnings from local business in 1867 were more than four times the annual interest engagements.

III. The hard part of the road is now done, and the prospects of rapid completion are favorable.

IV. The Company have liberal subsidies, which enable them to prosecute the work with great vigor.

V. The management has been exceedingly prudent and frugal.

VI. There is already a large and growing settlement on the completed and graded line.

VII. The lands promise to be of immense value, 37,033 acres having been already sold.

VIII. Both principal and interest are explicitly made payable in gold coin.

IX. Both the aggregate amount of issue and their standing in Europe will insure for them continued activity and a high rank among standard securities.

At this time they yield nearly

Nine per cent. upon the Investment.

Holders of Government Securities have an opportunity of exchanging them for Central Pacific Bonds, bearing an equal rate of interest with the principal abundantly secured, and of realizing a profit of ten to fifteen per cent. in addition.

Orders sent with the funds through responsible Banks or Express Companies will receive prompt attention. Bonds sent by return Express, to any address in the United States, at our cost. Information, Descriptive Pamphlets, Maps, &c., furnished on application at the office of the Railroad Company,

MINE.

My heart has wandered in the chilly air,
Circling around my Lady's gentle frame,
Which ever sweetly glowed, yea glowed the same
When I was near, and when in dumb despair,
I turned away to ease the pain wrought there;
Alas poor heart! 'twould struggle hard to tame
The wildered love it bore my Lady fair.

How fearful thrilled the sound of her dear name!
But I have felt a happiness, to day
As sweet as all was bitter, and a balm
Has soothed my cruel wounds; a gentle play
Of thought is mine, a dear delicious calm;
For I have seen the love light sweetly shine
While her bright eyes were trembling into mine.

NEWS FROM ABROAD.

—Thirty deaths per diem is the horrid record of the cholera in St. Domingo City.

—Plays with English titles are now figuring largely at Paris theatres, and seem to be popular enough.

—The new Record building in London is said to be the only absolutely fire-proof structure in England.

—The Merchants' and Commercial Banks of Montreal have amalgamated, and are hereafter to be known as the Merchants' Bank of Canada.

Dr. Carl Hugen, one of the most illustrious of German historians, is dead. At the time of his demise he was Professor of History at the University of Berne.

—The boiling down of meat for exportation has become a very important branch of Australian trade, and bids fair to become the most important before very long.

—The Suez Canal is to be finished in October, 1869. The total cost will be $77,000,000. Several steam navigation companies are already negotiating for landings at Port Said.

—In mercantile shipping Great Britain is at the head of the list, rating 7,000,000 tons. America follows with 5,000,000 tons. Germany is third and France comes up slowly a bad fourth.

—President Cabral and his Cabinet have fled from St. Domingo to Venezuela. What a blessing it would be if a certain other President and part of his Cabinet would follow President Cabral.

—On the 19th of February the Crown Princess of Prussia presented her people, that are to be, with a fine healthy Prince. The family of the Princess is already nearly as large as that of her august mother.

—London has at last to succumb to the pressure for street railways. Like every other American idea, this one has first been hooted at, then attributed to the inventive brain of some Englishman, and at last adopted.

—London is tired of having the huge droves of Dutch cattle parading the streets, and is about to have a foreign cattle market located besides the Thames, where they can be sold immediately on importation.

—A London tailor who has purchased the right of calling himself Court tailor to the Prince of Wales, has given notice that he will make clothes for no man who does not belong to a family of position or standing in the country.

—In America, champagne is cider. In England, champagne is gooseberry wine. At a late grand ball given by the Mayor of Liverpool, ninety-seven dozen of this delectable fluid disappeared down the throats of happy Englishmen.

—In 1867 the paupers of England and Wales, exclusive of lunatic poor, and vagrants, increased 86,885, and the English journals think that the present state of that country gives reasons for expecting a still further increase this year.

—Two young girls were recently brought before the Staffordshire assizes, who could neither read nor write, had never heard of either God or the Bible, and had never been at school or chapel. They were scullions on board of canal boats.

—Mr. Hodgkin, an English member of Parliament, has made a speech ridiculing the Pan-Anglican Convention, and particularly the idea of inviting American Bishops to assist in it. The Honorable member is letting his spite and envy of things American carry him out of his depth.

—The new flag of the German Confederation is rather oblong in shape and has a white ground with a black cross which divides it into four equal parts. Three of these parts are white, the fourth being the upper left hand corner, is striped with red. The arms of the black cross do not unite in the centre, but enclose a round white medallion in the centre of which is the black eagle of Prussia.

—The mercantile marine of Italy is remarkably diminutive in comparison to that of other countries. In spite of a fine stretch of sea coast and good harbors, there is no perceptible advance in this particular. France, England and Austria are the largest consumers of her products, and do most of her carrying. Railways are now being rapidly completed, which will develop large tracts of country heretofore only accessible by tedious journeys from the sea coast. The Pope has refused to render the coin of the States of the Church similar to that of the surrounding kingdom, and much monetary confusion is the natural result. Italy is evidently not yet a land of very great progress.

MISCELLANEOUS ITEMS.

—A citizen of Cherokee county, Texas, says in a letter to the Houston *Journal*. "The freedmen of this county are respectfully industrious. The whites are at work and economizing. Many are marrying and giving in marriage, and seem determined to replenish the earth, in obedience to the divine edict. The farmers of this county will plant but little cotton this year, turning their attention to the producing of the cereals, raising hogs, horses, etc. Cherokee county presents an inviting field for immigrants this year. Corn is selling at 40c, potatoes at 25c, pork at 5c, and other provisions in proportion. The best land unimproved can be bought on accommodating terms, at from one to three dollars per acre, and improved farms at from two to six dollars per acre; and plenty of farms to rent for the year 1868, to good industrious white men."

—New Albany has a negro who, a few years ago, commenced turning white and has continued so doing ever since. He seems to be in perfect health, but the black skin shrivels up and drops off, leaving a white clear one below. More than one-half of his body is now covered with a skin such as, for color and delicacy, any white man might be proud of.

—Major B. W. Pierce, a gentleman who divides his time and his votes between Louisiana and Alabama, is devoting his time at present to the writing of articles urging the whole southern population, with white skins, to emigrate to Honduras. Why he picks out that particular piece of territory we don't know, unless it is because no one else ever did.

—We are requested, by an exchange to copy the following:

If this should meet the eye of Augustine, a printer, he is earnestly requested to return to his home in Ohio, immediately, and relieve the anxieties of a distressed family.

—The South is a good place to invest spare shinplasters in now. Fractional currency will buy what greenbacks do up north. 165 acres of ground in Tallahatchie county, Miss., sold for five cents an acre.

—Mr. Jones, proprietor of a saw mill in Michigan, met with rather a disagreeable accident recently. He was sawed in two and they buried him the next day.

—All the London police stations are provided with bullet proof iron shutters, and an assortment of small arms and ammunition, all on account of the Fenians.

Annexation of Duquesne Borough—Councilmen Sworn In—Removal of the Toll Gates—Resolutions Relative to the Death of Gen. Robinson—Apportionment of Councilmen—Common Ground Improvements—The Fire Department, &c., &c.

A regular semi-monthly meeting of the Allegheny Councils was held last evening in their chambers in the City Building.

Select Branch.

In Select Branch there were present Messrs. Black, Brown, Faulkner, Gwinner, Hall, Motheral, Myler, J. C. Patterson, A. Patterson, Phillips, Riddle, Reiter, A. D. Smith, Wm. Smith, Weise, Wettach, President McBrier and D. Masterson, Clerk.

Absent—Messrs. English, Gang, Hartman and Reed.

The minutes of the two preceding meetings were read and approved.

THE ANNEXATION OF DUQUESNE—NEW MEMBERS.

On motion of Mr. Riddle, the regular order of business was waived to allow

Mr. Brown to present a communication from the Councils of the Borough of Duquesne. The communication contained a report of the action of the said borough, at a meeting held February 25th, 1868, on the election of members of Select and Common Councils of the city of Allegheny, to represent the borough. The following are the gentlemen elected to the two branches:

Select—Messrs. James Callory, John John and William Krebs.

Common—Messrs. G. P. Wilhelm, Andrew Lyons and William Saints.

REPORT OF THE COMMITTEE ON ANNEXATION.

Mr. Hall, chairman of the Special Committee appointed to confer with a Committee in relation to the annexation of Duquesne Borough to the City of Allegheny, submitted the report of that Committee, accompanied by the following preamble and resolutions, to be acted upon provided the Councils of Duquesne Borough agree to come into the city:

WHEREAS, An act, entitled "an act annexing the Borough of Manchester to Allegheny City," approved the 12th day of March, A. D. 1867, provides that the City of Allegheny shall have power to extend her northern boundaries by a direct line from the northeast corner of said borough of Manchester to a point of intersection with the northern boundary of the borough of Duquesne, that will take in the water basin of said city of Allegheny, and from the said point of intersection to the eastern terminus of the line of said borough of Duquesne, whenever the Councils of the said borough of Duquesne shall consent to the extension of said boundary line; and

WHEREAS, The Councils of the said borough have given their consent to the extension of the boundary line of this city as provided for in said act, and have given duly authenticated notice of their action to this Council; therefore be it

Resolved, That the boundaries of the city of Allegheny be and they are hereby so extended as to embrace all the territory now constituting and forming the borough of Duquesne.

The report was accepted, and the accompanying resolution adopted.

Mr. Brown then moved that the members from Duquesne borough be invited to seats, as a matter of courtesy. Adopted.

Messrs. Brown and Hall were appointed a Committee to conduct the gentlemen to seats, which was accordingly done.

The report and communication were then at once sent to the Common branch for action.

REPORT ON RULES.

Mr. Riddle, from the Special Committee, consisting of Messrs. Riddle, Hanna and Phillips, appointed to modify the Rules, presented a report containing a number of proposed changes and additions. Accompanying, the Committee offer resolutions that the Rules of Order of the Councils of 1867, with the proposed modifications, be adopted, and that the Clerks of Councils be instructed to properly head, index and have two hundred copies printed and bound.

The Committee also recommend the employment of two boys, one for each Council Chamber, to act in the capacity of pages, to carry documents, &c.

The various modifications of the rules were taken up *seriatim*, and acted upon.

The resolutions were then adopted. C. C. non-concurred as to "pages." S. C. receded and concurred.

THE NEW PASSENGER RAILWAY.

Mr. Myler presented a petition from the Pleasant Valley Passenger Railway Company, accompanied by a copy of the charter of incorporation and a communication from the officers of said company accepting the provisions of the charter. Referred to the Railroad Committee. C. C. concurred.

OPENING OF WASHINGTON STREET.

Mr. Phillips presented a petition from the Fort Wayne Railroad Company asking for a revision of the matter of assessing that Company for damages for the opening of Washington street.

Mr. Myler presented, also, the report of the viewers on the opening of said street, and on motion both were referred to the Street Committee.

ASSESSMENTS FOR STREET IMPROVEMENTS.

Mr. Weisse offered an ordinance from the Committee on Ordinances, providing that hereafter it shall be the duty of viewers appointed to assess damages and benefits for street improvements, after the completion of their report, and before laying the same before Councils, to give personal notice to all parties interested appointing a certain day and hour for inspection of the assessments, and hear complaints from parties interested.

Read three times and finally passed. C. C. concurred.

REPORT OF STREET COMMITTEE—IMPROVEMENTS.

Mr. Myler, Chairman of the Street Committee, presented the report of that body, from which we extract the following:

Petition for opening Sedgwick street. Prayer of petitioners granted.

In the matter of a petition for widening Pitt alley to forty feet, the Committee submit the following resolution:

Resolved, That the action of Councils of the 13th inst., on the report of the viewers on the widening of Pitt alley, be and it is hereby reconsidered, and said report is hereby received and ordered to be filed.

Petition of Mrs. Margaret Fisher for exoneration from paying sewerage tax. The Committee report adversely.

Petition of Joseph Woods for appointment of Assistant Street Commissioner. The position being at present filled, the Committee report adversely.

In the matter of paving Centre, Hamilton, Fayette and Perry streets, and McGee's alley, the Committee report an ordinance providing for the same.

Petition for paving Spring Garden Plank road. Not granted.

In the matter of Poplar street, the Committee report a profile of the grade of said street.

In the matter of removing toll gates outside the city limits, the Committee submitted a draft of an Act of Assembly providing for the same.

Relative to the regrading and paving of Young's Alley, the Committee submitted a profile of the proposed grade, and an ordinance providing for the repaving and grading of the alley.

Relative to changes of grades of streets the Committee submitted the following:

Resolved, That the City Solicitor be and is hereby instructed to prepare a bill and submit it at the next meeting of Councils, to provide for the amount of damages occasioned by changes in street grades to be assessed on all property benefited thereby.

In the matter of the petition of property owners on Chestnut street for exoneration from amount of paving, the Committee report a resolution adverse to the prayer of the petition, and authorizing the Street Committee to proceed with the collection of amounts.

Report accepted and resolutions adopted. C. C. nonconcurred as to third resolution.

The proposed act for the removal of toll gates was approved and ordered to be transmitted to the Legislature for enactment.

The petition for the regrading and repaving of Young's alley was, on motion of Mr. Myler referred back to the committee.

The resolution instructing the Solicitor to prepare a bill in reference to assessments for damages, was adopted.

The ordinance providing for the grading and paving of Fayette street, was taken up.

Mr. Myler stated that it was the intention to grade it entire and pave it now only from Bidwell to Fulton street. He moved that it be so amended.

After some discussion on this matter, Mr. Hall moved that it be referred back to the Committee with instructions to report the facts.

It was urged by Mr. Black and Mr. Myler that the improvement was much desired, and they asked that the ordinance be passed.

Mr. Hall thought there was no particular hurry, and it would be well, as there was some dissatisfaction, to have a full report of the facts.

Mr. Hall's motion to recommit was lost.

The ordinance, with Mr. Myler's amendment, was finally adopted on a third reading. C. C. concurred.

The ordinances providing for the grading and paving of McGee alley, Hamlin street, Centre street and Perry street were read three times and finally adopted.

The ordinance providing for the widening of Pitt alley to a forty feet street was taken up.

Mr. A. D. Smith moved that it be laid over for further consideration, in view of the fact that remonstrances had been sent in against it.

Mr. Riddle seconded the motion, and it was carried.

Mr. MYLER moved that the ordinance providing for the widening of Sedgwick and that also in reference to Poplar street be recommitted.

PUBLIC BUILDING IMPROVEMENTS.

Mr. HALL presented the report of the Committee on City property in reference to the matter of Council chamber improvements. The report says:

GENTLEMEN:—Your Committee on City Property would respectfully report that we duly considered the resolution (referred to us by Councils) relative to the construction of false ceilings in the Council Chambers. We would suggest, so far as the Common Council Chamber is concerned, a different arrangement, which, we are informed by the architect of the building, will effect the object aimed at in the resolution and will meet a pressing want. It is this:—That a gallery be constructed for the use of spectators, with entrance from the third story, and that the space beneath be partitioned off, and, in connection with the Street Commissioner's present office, be fitted up for offices for the Controller and Clerk of Committees. The duties of these officers are such as at times to require privacy, which under existing arrangements cannot, but which under the proposed arrangements, can be obtained.

As regards the Select Council Chamber we would recommend the placing of a false ceiling therein.

We would also recommend that the floor of the room in the basement, in rear of the cells, be relaid, as well as that other repairs of main importance be made in the building. Accordingly we offer the following resolutions:

Resolved, That the Controller be and he is hereby authorized to advertise and receive proposals for constructing a gallery in the Common Council Chamber, for fitting up the space beneath and the street commissioner's room with offices, and for all other work attending on said alterations. Also for fl[illegible]ring the room in rear of the cells in the basement of City Hall.

Resolved, That Mr. John U. Barr be and he is hereby authorized to proceed with the construction of a false ceiling in the Select Council Chamber; provided that if the same does not effect the end designed, viz: that of hearing with distinctness, he shall receive no remuneration therefor.

Resolved, That the Committee on City Property be and they are hereby authorized to make such other repairs and alterations in the City Hall as they may deem necessary.

After reading it, Mr. Hall said he hardly knew what to move in the matter. He explained the views of the architect, and stated that a new and more secluded Comptroller's office was much needed. To bring the matter before Councils, however, he moved the adoption of the resolutions.

Mr. Myler seconded the motion, but with Messrs. Hall, Riddle, and A. C. Patterson opposed any cutting up of the Chambers.

The motion was lost.

The resolution authorizing the construction of a false ceiling in the Select Chamber was then taken up and adopted, with the amendment that the Committee have power to act.

The resolution providing for various repairs in the building was adopted. C. C. concurred.

Mr. Myler having the report of the viewers on the opening of Locust street, moved that it be referred back to the Committee on account of objection. So ordered. C. C. concurred.

THE DEATH OF GENERAL ROBINSON.

Mr. Myler, in a few well timed remarks on the death of General William Robinson, Jr., moved that a Committee of five, two from Select Council and three from Common, be appointed to prepare resolutions of condolence.

The President appointed Messrs. Myler and Brown on the Committee. In C. C. Messrs. Fleming, McNeill and Warner were appointed.

APPORTIONMENT OF REPRESENTATIVES.

Mr. McBrier (Mr. Brown in the Chair,) submitted a proposed Act of the Legislature, prepared, under instructions given at the last meeting, by the Presidents of Councils, providing for representation in Councils, and apportioning the same. The proposed act provides that each ward shall have two representatives in Select Council to serve for two years. Each ward shall have one representative in Common Council for every 575 resident taxables, to serve for one year; but each ward shall have at least two members; and if the excess in any ward shall be two-thirds of 575 it shall be entitled to one member for such excess. A Commission, consisting of the Mayor and Presidents of Councils, shall in the month of December, 1867, and every year thereafter, apportion the Representatives of Common Council, from the list of taxables returned by the assessors of each ward. The first election under the provisions of this act shall be the next regular election after its approval by the Governor, provided that the present members of Select Council shall serve out the time for which they are elected.

The act was approved. C. C. concurred.

COMMON GROUND IMPROVEMENT.

Mr. Phillips called up and moved the approval of the supplement to an act entitled "an act authorizing and providing powers and means for the conversion of the common grounds of the city of Allegheny into public parks."

Section first of this act is in intent and meaning the extension of the provisions, authority, control and powers of the Park Commissioners, contained in the act to which it is a supplement, over the Seminary Hill property, embraced in the plans of the public parks made by Messrs. Mitchell, Grant & Co., and already approved by Councils, with the same force and effect as though the act had included the said Seminary Hill for improvement as a public park.

Section second says that the additional cost and expense of making the improvements of the Seminary Hill property shall be provided for the same as the work on the other common grounds. It also provides for the issue of bonds and for the collection of assessments for the improvement.

Mr. Hall stated that he could not understand the last section, which refers to the assessment.

A number of other gentlemen were in a similar "fix."

Mr. A. C. Patterson explained that it was intended to mean that in case the funds already provided for should not be sufficient to include the improvement of Seminary Hill, they should have power to increase the levy, and raise an additional sum.

THE FIRE DEPARTMENT ORDINANCE.

The President presented the report of the Fire Engine Committee to which had been referred back the ordinance "creating the office of the Chief Engineer of the Fire Department, defining his duties and regulating the complement of men in charge of Hose Department," to have it printed. (An abstract of this ordinance we have already published.)

On motion of Mr. Hall, the report was accepted.

A motion being made to adopt the ordinance,

Mr. Riddle moved to strike out section five, which provides for a driver and four hose directors on each hose apparatus and for their compensation.

Some discussion took place on this, during which it was stated that if stricken out it would leave it as in the old ordinance, eight men for each hose apparatus.

Mr. Phillips moved to amend by providing seven hose directors instead of four.

With this amendment and an amendment of the first section, providing for the election of the Chief Engineer at the next meeting, the ordinance was passed to a third reading and finally adopted.

DUQUESNE MEMBERS SWORN IN.

Common Council having concurred with the motion of S. C. in the matter of the annexation of Duquesne borough,

Mr. Hall moved that the gentlemen elected by the borough Council as members of the Select Council, be sworn in.

The President stated that one man had protested against the admission of the representatives.

Mr. Hall stated that the gentleman's objection was that a new act for the annexation was being prepared.

Mr. Hall's motion was adopted, whereupon Mayor Drum administered the oath to Messrs. Callory, Jahn and Krebs as Select Councilmen from Duquesne borough, and the gentlemen took seats.

Mr. Hall was instructed to notify our members of the Legislature of this annexation.

Mr. Callory stated that he had already written to Senators and Representatives that action toward annexation of Duquesne had been commenced under the old act.

RESOLUTIONS OF CONDOLENCE.

Mr. Myler, from the Joint Committee appointed on resolutions in reference to the death of Gen. Wm. Robinson, Jr., presented the following:

WHEREAS, It has pleased the All-Wise Ruler of the Universe to call from this world to the Grand Council above our esteemed fellow citizen, Gen. Wm. Robinson, Jr., the first white person born north of the Allegheny and Ohio rivers, and the first Mayor of this, his native city; therefore, be it.

Resolved, That whilst we bow with humble submission to the will of an ever kind Providence, we cannot help but mourn that one who has for so long a time been identified with the growth and prosperity of our city has been called away.

Resolved, That in the demise of Gen. Robinson our city has met with an irreparable loss, and with our whole community shall ever revere his memory.

Resolved, That to the family of our deceased friend we hereby tender our heartfelt sympathy in this their hour of sore bereavement, but rejoice to know that they are not as those who mourn without hope, for the husband and father

"Is not dead, but sleepeth."

Resolved, That in this dispensation of Divine Providence, our city has lost one of its brightest ornaments, and our whole country one who was ever loyal and true to every noble principle that should ever animate the breast of an American citizen.

Resolved, That in the death of General Robinson our city has lost one of its best friends, the church one of its most consistent members, and the poor and needy one whose hand was ever open to relieve the distressed.

Resolved, That as a token of our esteem and regard for the memory of the deceased, that the Councils attend his funeral in a body, and that the Council Chambers be draped in mourning thirty days.

Resolved, That these resolutions be entered in the journal, and a copy sent to the family of General Robinson.

Mr. Myler, after reading the report, delivered an able address on the character of the deceased, which was listened to with the greatest attention by all members.

After remarks by other gentlemen, the resolutions were unanimously adopted. C. C. concurred.

In the early part of the proceedings Mayor Drum having appeared in the chamber, on motion of Mr. Hall, he was invited to the privilege of the floor.

After consultation as to the manner of attending the funeral of General Robinson, Council adjourned.

Common Councils.

Members present: Messrs. Brown, Blair, Cutler, Comley, Clark, Dunham, Eyster, Fleming, Geyer, Hanna, Hastings, Hochuly, Kennedy, Kunkle, Lindsay, Ley, Megraw, Mayer, McDonald, McNeill, Ober, Reed, Richardson, Tate, Voegtly, White, Warner, and President Slagle.

The minutes of the preceding meeting were read and approved.

ANNEXATION OF DUQUESNE BOROUGH.

Mr. McNeill presented an extract from the minutes of a meeting of the Councils of Duquesne borough, held February 10, 1868 at which the consent of the borough was given to the extension of the city lines so as to include that borough; and an extract from the minutes of a meeting held February 25, 1868, at which the following named gentlemen were chosen to represent that borough in the City Councils: Select Council—James Callory, John Jahn and William Krebs. Common Council—G. P. Wilhelm, Andrew Logan and Wm. Saints. No action.

PETITIONS.

Mr. Megraw presented a petition from the citizens of the Fourth Ward, asking for the construction of a sewer on Liberty street. Referred to the Committee on Streets and Sewers. S. C. concurred.

Mr. Brown presented a petition from the citizens of the First Ward, residing on Lacock street, setting forth that they suffered great inconvenience from the location of the track of the Pittsburgh, Allegheny and Manchester Passenger Railway track on the side of said street, and asking that the company be required to remove it to the center of the street. Referred to Committee on streets and street Railways. S. C. concurred.

Mr. Kennedy, a petition from the citizens of the Fifth ward, asking for water pipe on Laurel Alley. Referred to Water Committee. S. C. concurred.

Mr. McDonald, a petition from citizens of the Second ward, asking for a gas lamp at the corner of Morgan alley and Taylor avenue. Referred to the Committee on Gas. S. C. concurred.

Mr. Ober, a petition from citizens of the Third and Seventh wards, asking that Perry street be opened from its present terminus to the Troy Hill road. Referred to Street Committee. S. C. concurred.

Mr. Kunkle, a petition from property holders on Cedar alley asking for water pipe on said alley. Referred to Committee on Water. S. C. concurred.

FOOT CROSSINGS.

Mr. White, a resolution authorizing the Street Commissioner to have a stone foot crossing placed on Juniata and Franklin streets at their junction with Beaver street, and an iron culvert across Beaver avenue on Washington street. Referred to Committee on Streets. S. C. concurred.

REPORT OF COMMITTEES—FIRE DEPARTMENT.

Mr. Megraw, Chairman of the Committee on Engines, submitted the following report:

GENTLEMEN: Your Committee on Engines would respectfully report that, in pursuance of instructions of Councils they have printed the two ordinances relating to the Fire Department, copies of which have been sent to each member of Councils.

We considered the petitions (and accompanying ordinance) of the Firemen, which were referred to us, and would report adversely to granting the prayer of the petitioners; instead, we would urge the adoption of the ordinance presented by your Committee.

The ordinance provides that the Fire Department shall consist of one Chief and First and Second Engineers, and of the Columbia, Gen. Grant, Friendship, Ellsworth, and Manchester Hose Companies, composing the Firemen's Association, and such others as may hereafter be added—the above mentioned companies to be numbered in the order named. It then provides for the management of the Department and defines the duties and powers of the officers named. The report was received and the ordinance read three times and passed finally. C. C. concurred.

GAS LAMPS.

Mr. McDonald presented the report of the Gas Committee, which was accompanied by the following resolution:

Resolved, That the Committee on Gas be and they are hereby instructed to place ten gas lamps on the Spring Garden Plank Road in such localities as may be designated by the Council delegation from the Seventh ward.

Report accepted, and the Resolution adopted. Select Council concurring.

CITY PRINTING.

Mr. Warner, Chairman of the Committee on City Printing submitted the following:

GENTLEMEN:—Your Committee on Printing beg leave to report the following resolution to contract with the official papers to do the city printing for the current year. The rates set forth therein have been mutually agreed upon between your Committee and the several papers:

Resolved, That the Controller be and he is hereby authorized to enter into a contract with the GAZETTE, *Dispatch* and *Freedom's Friend* to do the city printing for the current year at the following rates, viz:

For printing ordinances and proceedings, of Councils, each paper, two hundred dollars.

For printing all other advertisements each paper, seventy-five cents per square for first insertion and half that rate for each subsequent insertion.

Having duly considered the resolution referred to us as relative to the offer of the *Commercial* newspaper to supply the Councils of this city with one hundred copies of a record containing all the proceedings of each meeting of Councils, and believing that such a record would be of advantage, not only to members of Councils, but the city officers, we would offer the following:

Resolved, That the Controller be and he is hereby authorized to enter into a contract with the *Commercial*, to furnish one hundred copies of a record containing all the proceedings of each meeting of Councils, held during the ensuing year, for the sum of two hundred dollars.

The Report was received, and the resolution adopted. Select Council concurring.

The President stated that the Select Council had sent in a paper relative to Duquesne Borough, endorsed "Report received and resolution adopted," to which there was no resolution attached.

On motion of Mr. McNeill, the paper was referred back to Select Council for explanation.

Mr. McNeill moved that a Committee be appointed to invite and conduct the members of Councils from Duquesne Borough to seats inside the bar, as an act of courtesy until such time as they were duly sworn as members of Councils. The motion was adopted, and Messrs. McNeill, Warner and Tate appointed.

Messrs. Saints and Wilhelm being present, were conducted to seats by the Committee.

The report of the Street Committee from S. C. was then taken up.

Mr. Cutler moved to concur with S. C. in all except the third resolution.

Mr. Hanna asked the gentlemen's reasons for his motion.

Mr. Cutler stated that the grade had been established by the Western Pennsylvania Railroad Company, and it was injustice to compel the citizens to pay for it.

Mr. Hanna said that the grade had been given by the City Engineer, and that the Railroad line graded and paved the road in accordance with instructions from Councils, and it was for a portion of the street that had to be cut down that the assessment was made.

Mr. Slagle (Mr. McNeill in the Chair) said that he did not wish to call in question the veracity of any member of the Street Committee, but the gentleman was mistaken. The railroad company had not done their duty, that at the time that grading and paving was done there was no legal authority for doing it, and not until a year had passed after the work was done that the assessments were made. That there was a blunder on the part of Councils in regard to the matter, and to make those citizens pay for it would be unjust. He believed if Councils insisted upon the payment of the money the matter would be contested in Court.

Mr. Hanna said that the Pennsylvania Railroad Company had made no blunder, and if their was a blunder it was on the part of the city, and the Council could not make the Railroad Company pay for it.

Mr. Slagle said he did not wish to make the Pennsylvania Railroad pay for it. That he only coupled their name with the story to make it complete. That every one of the citizens who are now assessed, signed a petition which was presented to Councils protesting against the grading and paving of the street. There was no contract made for the work, and there was no authority for doing it.

Mr. Kunkle wished to know if the citizens on that street had paid for paving the street originally.

Mr. Hanna replied that the city had paid for the paving originally.

Mr. Cutler said the gentleman was mistaken; that the citizens had paid for it themselves.

Mr. Hanna said that it made no difference, the grades of streets could be changed at the pleasure of Councils, and the citizens on Chestnut street were no worse off than those on Robinson and Lacock streets, where the grade had been changed.

Mr. Cutler thought that the case was different, that in one instance the property was benefited and in the other it was not.

Mr. McNeill, was opposed to making the citizens pay for a blunder of Councils.

Mr. Megraw, was also opposed to making the citizens pay the assessment.

Mr. Cutler called for the yeas and nays, which resulted in the adoption of the motion by a vote of 21 to 6.

Mr. Cutler moved that a committee of three be appointed to conduct the Mayor to the Council Chamber, in order that the oath of office might be administered to the new members from Duquesne Borough. The motion was adopted and Messrs. Cutler, Kunkle and Hastings appointed.

The Committee waited upon the Mayor and conducted him to the Council Chamber, when the new members were called up to take the oath.

Mr. Wilhelm objected to being sworn in at present, and requested that the matter be postponed until the next meeting.

Mr. Saint could see no use of delay in the matter.

A vote of Council was then taken as to whether Mr. Wilhelm's objection should be sustained, which was decided in the negative.

The President then directed that the oath be administered to all the new members present who were willing to take it, when Mr. Saint came forward and was sworn in.

Business from Select Council was again taken up, in all of which not otherwise noted Common Council concurred.

Councils adjourned.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, February 27, 1868.

Gold opened dull and lower at 140⅝; it gradually advanced to 141¼, but closed weak at 141⅛. The payment of the March coupons on 10-40 bonds, as well as occasional small sales by the Government, would point towards lower rates, but the impeachment of the President and his probable removal from office may be looked upon in Europe in a different light, and may bring back bonds instead of shipping them outward.

Government bonds are decidedly weak and lower, and point towards a further decline. The rise in the rate on call loans seems to be the principal reason, and the absence of any speculative movement from the larger monied institutions. The market has been bulled for the last two weeks by the principal dealers to enable them to sell out; the demand from the interior has ceased more than months ago, except in small lots.

Stocks were dull and lower in the early part of the day, but closed buoyant and higher towards evening. There is an increased demand for money, though business seems absolutely dull, but there are signs of improvement, and with the actual opening of the spring season, and the removal of causes of political excitement, confidence will revive again, and activity will prevail instead of idleness.

Money will command from 10 to 12 per cent., according to the class of the securities.

Closing New York quotations, received by Ph. R. Mertz, are as follows:

—It has been reported that some new counterfeit Seven Thirty notes have been presented at the Treasury. This rumor has originated from the fact that two counterfeit notes have been presented of the June issue. They are both from the plate discovered several months ago, and one of the notes had been offered before at the Treasury, where it was rejected. No new counterfeits of the Seven Thirties are known to be in existence.

—What is known as General Logan's bill for taxation of United States bonds provides that after June 1, 1868, all United States bonds shall pay an internal tax of two per centum, this tax to be deducted from the coupons when presented for payment at the office of the Treasury agents. The great United States bond-holding public is profoundly interested in the tax question. The general impression is that Federal securities will not long escape the tax gatherer's hand.

—Says the Cincinnati *Gazette*, of Wednesday: The money market is decidedly closer to-day, under an active demand for loans, and considerable shipments of currency to interior points. The increased demand for money arises from more activity in speculation in merchandise, and the purchase of stocks of goods for the spring trade. Aside from the usual course of trade, political affairs exercise a disturbing influence on the money market, not that there is any tangible reason for solicitude, but capital is proverbially sensitive, and in times of unusual excitement is held idle until the calm returns. The discount houses are confining their operations more strictly to their own depositors, and rates of interest are very firm at 8@10 per cent. for first-class paper. In the open market good mercantile paper is plenty and difficult to negotiate at 12@15 per cent.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, February 27, 1868.

CRUDE—There was not much stir in the crude market to-day, and the general tone of the trade indicated weakness; prices, compared with yesterday, have undergone no quotable change. We can report one thousand barrels for April at 8½c, and another thousand for June, at 8⅝c. We heard of offers to buy March at 7¾c, but so far as we could learn, there were no sellers below 7⅞c; April may be quoted at 8¼c; May at 8½c, and June at 8⅝c. There were no sales for all the year, in the absence of which, we continue to quote at 11 to 12c. The stock of spot oil in this market is exceedingly light at present, and since the completion of the Allegheny Valley Railroad it is not important that there should be, as refiners can now order as they need it direct from Oil City.

REFINED—The reports in regard to the market for bonded oil were rather conflicting to-day. Some of the brokers reported more inquiry, which would very naturally indicate a better feeling, while others thought it was a little off; on one point, however, all agreed, and that is, that prices have undergone little or no change. We can report 500 bbls for March, at 24c; 500 and 1000, for all the year, buyer's option, at 29c; and a line of 3000 bbls—1000 for May at 25½c; 1000 for June, at 26c; and 1000 for July, at 26½c. Antwerp, which was off slightly yesterday, is reported steady to-day, and it would not be surprising if the next telegram from that point would report an advance of a franc. According to the classic, Captain Barbour, the "Dutch," have got to manipulating the market. Would it not be a good thing for the trade if the Captain would get up another circular?

BENZOLE—There is considerable inquiry for this article, and the market is firm but unchanged; sale of 1000 bbls for the last half of March, buyer's option, at 15c; and 1000 for all March, at 15c.

ARRIVALS—The arrivals of oil by the Allegheny Valley Railroad to-day, were as follows:

Lockhart & Frew	1060	Fisher & Bro	220
Fulton & Marvin	80	Bly & Pinkerton	160
Buffum, K. & Co	493	J. Gallagher	50

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, February 27, 1868.

There is really nothing that is new or important to be said about the general markets. For some few articles, prices are looking up, in consequence of scarcity, but as a general thing the volume of business is very light, and dullness and depression are the order of the day.

GRAIN—Wheat is in demand and in light supply; sales of No. 1 Spring at $2,35, and Red Winter at $2,47. Corn is dull with a supply considerably in excess of the demand; may be quoted at 90@95c on track, and $1@1,05 in store. Oats steady but unchanged; we continue to quote at 64@65c, on track; and 67@70c in store. Barley is scarce and in demand at $2@2,10. Rye is firmer; may be quoted at $1,45 in first hands, and $1.55 in store.

FLOUR—The market is quiet and dull but prices are unchanged. We continue to quote at $10,50@11,25 for Spring Wheat; $12@12,50 for Winter Wheat, and $14@15 for fancy brands. Rye Flour is still quoted at $8@8,25, and Buckwheat at $4@4.50.

PROVISIONS—Bacon is firm but unchanged; we quote at 11½@11¾c for Shoulders; 13¼ for Ribbed; 14½@15c for Clear Sides, and 17½@17¾c for Sugar Cured Hams. Lard is firm and advancing; prime kettle rendered is quoted at 15½@16c, in tierces, and 16¼@16½c in kegs. Mess Pork, $25.

BUTTER—There is a very good demand for prime to choice Roll Butter, and we can report regular sales at 40@45c.

EGGS—Unchanged at 28@30c.

SEEDS—There is but little inquiry for Clover or Timothy Seeds, and the market is quiet and unchanged; we now quote the former at $8@8,25, and Timothy at $2,50@2,75. Flaxseed, $2,35@2.40.

DRIED FRUIT—Is in good demand and firm but unchanged; sales of Peaches at 7½@8c for quarters; and 10@11c for halves, and Apples at 7@8c.

GREEN APPLES—There is only a moderate demand, and while the market is rather dull, prices are unchanged. Sales at $3@5 per bbl, as to quality.

POTATOES—Dull and unchanged; small sales in store at $1@1,10 per bushel, and $3@3,25 per bbl.

HAY—Is selling from country wagons at $15@22 per ton, as to quality.

HOMINY—Dull; sales to the trade at $6,25@6,50, and $6,75 in a retail way.

BEANS—Scarce and firm at $4@4,50.

ONIONS—Scarce; quoted at $4 per bushel.

CRANBERRIES—Sales at $14@18.

CENTRAL LIVE-STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, February 27, 1868.

CATTLE.

The operations in Cattle have again been remarkably light at these yards during the past week, and while the offerings were exceedingly limited, the supply, nevertheless was fully up to the demand, and the market was dull and neglected and devoid of any new characteristics worthy of special notice. The number of buyers in attendance was exceedingly small; two Philadelphia shippers arrived here on Wednesday, one of them returned again to-day without buying a single bullock, while the other turned in and bought a car load of Sheep, not feeling disposed to return home, like his companion, without anything. There were some good cattle on sale, but they were held above the views of buyers, and, as a consequence, they were mostly shipped east on owner's account. prime to extra retailing cattle may be quoted at 8 to 8¼c, while choice could not be bought for less than 9c, though we did not learn that there were any of this kind in market. It is alleged that the action of the Pennsylvania Railroad in refusing to ship stock to New York by way of Philadelphia, after the first of next month, will have a damaging influence on trade at these yards, keeping away eastern buyers, and, as a consequence, restricting business. It seems to us that the policy of this road should be to foster and encourage the stock trade instead of driving it away, and it will not only injure the Central Road, but it will seriously affect the interests of the Central Yards, and those who are regularly engaged in business there.

Glass, Lafferty & Co. sold 61 head of fairish cattle to J. Voner, weighing 76,880, at 7¼; 10 for Brush to Thompson at 7¼; 18 for McKee & Buchanan to S. Moses at 8¼; 7 head for Adams to Klemen at 6¾, and 1 at 4½.

Hedges & Taylor sold 18 for H. Eiseman, fairish Chicago steers, at 7¾, to Voorhees.

Brinkerhoff sold 24 head, weighing 41,925, to Pidcock & Co.—price not given.

McKee sold 19 head of commonish stock to Reed at 6 35.

Partridge sold Moses & Klemen 2 cows at 4½, and 15 steers at 6¾.

Jarrett to Thompson 1 pair of Penna. oxen, weighing 3,250, at 8.

SHEEP.

The market for common and inferior Sheep has again been very dull and weak, and prices for this particular description are fully from one half to one cent per pound lower. For prime mutton Sheep, however, there is a continued good demand, and all of this kind that offers is picked up readily, and that, too, at full prices. We quote the former at 3¼ to 5, and the latter at 5½ to 6¼—indeed it was reported that one bunch of extra brought 6¾c. It is thought by some that the arrivals of Sheep will soon commence to fall off, as the clipping season is not very distant, and holders, generally, will feel like holding on until after they have taken the wool off, and then put them on the market afterwards.

Glass, Lafferty & Co. sold 54 head for Metzler to Pidcock at 4; 194 for Reynolds to Raule at 4¾.

Hedges & Taylor sold 132 for Bourse to Maynes at 4; 187 for McKen to Pearce at 4.25; 180 for Jacobus to Pearce at $2,90 per head; 67 for McWhinney to Pidcock at 4,30; 92 for Ripley to same buyer, at 5,60.

Graul to Raule 109 head, averaging 85, at $2,37 per head.

A. Taylor to Raule 191 head, averaging about 88 lbs, medium quality, at 4½c per lb.

Raule sold 189 head, averaging 89 lbs, at $3,50 per cwt.

Hesser bought 187 from Ruff at 5¾; 179 from Atkinson at 4¾; 129 from Craig at 5; 155 from from Unger at 4,90.

McRoy sold 220 to Hipp at 4 38, and 20 to W. G. Thompson at 4 40.

Campbell sold 170 to J. Eby at 4, and Obiert sold 185 to Friend at 4.

HOGS.

As there has again been a light run of Hogs at these yards this week, and with a continued good demand, the market has ruled firm, and prices, although unchanged, are well sustained, ranging from 7¾c to 9¼c, gross, for common to choice heavy averages. How long these extreme, we might say exorbitant, prices will be maintained, it is difficult to conjecture, but of one thing we are certain, and that is, that the demand for fresh pork especially, in all the cities and towns in the country, must of necessity be greatly diminished, as there are thousands of laboring men and mechanics out of employment, who as a matter of course, cannot and will not buy, for the very good reason that they have not the means to buy with. And this, we think, must and will have a tendency to reduce the price of Hogs, and our advice to holders is to sell, and that, too, as quickly as possible, as a reaction will come sooner or later—it is only a question of time.

Singer & Imhoff bought 285 head Indiana stillers from Dock & Co. at 7¾; 109 from Tilden (corn fed) at 9; 106 from J. Voner at 9¼; 207 from Tilden at 9¾; 114 from Glass, Lafferty & Co. 9,40; 165 from same at 8.90. Shipped 769 head from Chicago, which cost from 8 to 8½ there

Crouse, Emerick & Co. bought 99 head from Hedges & Taylor at 7,65; 35 from Gilchreist & Co. at 7,40; 109 from Tilden at 9,10; 111 from Everett at 7,35; 87 from Pidcock at 8,19. Shipped 769 Chicago Hogs.

Hedges & Taylor sold 75 head for Keiser to Pearce at 7 70; 162 for Miller to Messenger, Gillett & Co. at 7,65; 124 for Stuart to Pidcock & Co. at 7¾; 17 to Dripps & Stockton at 8.56.

Financial Matters in New York.

Gold Closed at 141⅛@141¼.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, Feb. 27, 1868.

MONEY AND GOLD.

Money active but easier, though call rate is still at 6 per cent. Sterling weaker; prime bankers 9⅝@9¾; supply good with little demand; the late high rates appear to have been partially the result of speculation. Gold better, opening at 140¾; advancing to 141⅜@141¼, and closing steady, at 141⅛@141¼. The Deutschland for Europe took $30,000.

GOVERNMENTS

Are ½@¾ lower, but closed steady. Henry Clews and Co. furnish the annexed 4 30 quotations. Coupons of '81, 110¾@111; do of '62, 110⅜@110½; do of '64, 107⅝@107¾; do of '65, 108⅜@108⅝; do new, 106⅛@106⅜; do of '67, 107⅝@107¾; 10-40's, 104⅜@104½; 7-30's, 106⅛@106¼.

STOCKS.

Stocks opened firm, but without large transactions; Erie sold up to 68⅞ and New York Central and Hudson were better, the balance of the list sympathising, but a reaction took place later and the market, which was somewhat feverish, closed dull with the advance mainly lost. Canton 62@63, Cumberland 32@35. Adams Express 74½@74¾. Merchants 34¼@35, American 70@70½. United States 73@74. Wells & Fargo 40½@41. Quicksilver 23@23¼, Mariposa 7@7¼. Pacific Mail 111⅜@112¼. RIVER NEWS.

The river remains about stationary at this point, with six feet three inches in the channel. The Monongahela was quite muddy yesterday, but thus far there has been no rise worthy of the name. The Allegheny continues closed, and judging from present indications, will remain so for some time to come. The weather yesterday was stormy, and towards evening it became quite cold, with an occasional spitting of snow.

There has been no arrivals since our last report, and the J. N. McCullough, for Parkersburg, and the Glendale, for St. Louis, were the only departures. The Glendale had a very fair trip, with two hundred tons engaged below. The McCullough, also, had a good trip.

We saw Captain Coulson, of the Julia, with carpet bag in hand going to the depot yesterday afternoon, from which it is fair to infer that the Muskingum River is open, and that he has gone to Zanesville to bring the Julia to Pittsburgh.

The Argosy No. 2, Capt. Vandergrift, with Mr. W. H. Scott, in the office, is the regular packet for Cincinnati to-morrow, leaving at noon, and passengers and shippers should bear this in mind.

The Mary Davage and barges, Capt. Campbell, and the Maggie Hays, Capt. Martin, are up for St. Louis forthwith. The Sallie, Capt. Calhoun, is loading for the Upper Missouri.

The New York left Cincinnati for Pittsburgh on Tuesday, and the Kate Robinson, Delaware and New State were advertised to follow on Wednesday.

The New Orleans *Times* learns that Mr. Sam Barr, Jr., of the Republic, has linked himself with the charming and beautiful Miss Emma Floyd, of Pittsburgh, Pa. We cordially wish the happy pair every success through life.

Among the passengers on the steamer Amazon, which snagged and sunk near Napoleon, while on her way to New Orleans, was a Mrs. Maggie McGlasky, of Pittsburgh. There was but one life lost by the disaster, a deck passenger who got on at Helena.

The Sallie List was snagged and sunk early on the morning of the 21st, 25 miles below Selma. No lives lost. She was owned by the Mobile Trade Company.

The T. J. Pickett is advertised for sale on the 4th of March, by the United States Revenue Collector, at Maysville, Ky., on account of the Union Coal and Oil Company, of Maysville.

The Louisville *Courier* says the Frank Pargoud, with but a light head of steam, ran from Troy to Owensboro, a distance of twenty-eight miles, in one hour and twenty minutes, which equals twenty-one miles per hour. From Newburg to Evansville, sixteen miles, she ran in fifty-two minutes, and Captain Tobin says he is perfectly satisfied.

Captain Frank Hicks says the Belle Lee's time from Vicksburg to New Orleans was forty hours instead of thirty-six—not even an ordinary run. She will have to do better than that.

THAT OPPOSITION LINE.—The Louisville *Courier* says: From the Memphis *Avalanche*, of Friday, we take the following, admitting that the "Richmond takes the lead," but she "wont change her destination," as she belongs to our waters:

It is currently reported that the steamers R. E. Lee, Magenta, Richmond and Great Republic will form a line to ply between St. Louis and New Orleans in opposition to the Atlantic and Mississippi Steamship Line. The above will be an invincible combination. The Richmond takes the lead, and will change her destination next trip.

Says an exchange: Tell me, ye angelic hosts—ye messengers of love, shall swindled boatmen here below have no redress above? The shining angel band replies: To us is knowledge given; delinquents on a steamer's books can never enter Heaven.

Sunday's Memphis *Bulletin* indulges in the following: Our surmises with regard to the Amazon disaster are probably not groundless. It is said she passed the mouth of White river in a sinking condition, with the pumps at work, and it is believed with a deep place to sink in view. Whether this be true or not, she is sunk well, and it behooves the underwriters to make a thorough examination of the affair.

Captain T. Townsend, of St. Louis, a well-known Missouri boatman, has bought two-thirds of the little Tom. Stevens. Upon her arrival at Memphis, from the Arkansas, he will load her for Fort Benton.

The Memphis *Bulletin* says an extra policeman or two is wanted on duty at the levee, at that place, as steamboatmen are continually complaining of thieves.

A St. Louis telegram, under date of Tuesday, says: Weather colder, and business on the wharf necessarily dull. The steamers Stonewall and Welcome decline to load for New Orleans in favor of the Bismark. Competition for New Orleans freight is earnest between the agents of the Barge Line, Atlantic Line and Bismarck. Flour thirty-five cents a barrel and tending lower; all other articles in proportion. The ice gave way on the Lower Rapids last evening, and was only gone from Quincy likewise. The Liberty and part of the barge fleet arrived yesterday. The Glasgow left Carondelet this morning for Pittsburgh. She has 200 tuns iron ore. Messrs. Silver & Shields have sold out of the Mary McDonald. Capt. Wm. Fitzgerald was the purchaser, and gets in the office.

We take the following from the St. Louis *Republican*, of Tuesday: A general agent tells the following little "yarn" as showing how close a certain Captain is running his boat during these hard times: The agent says that as the Captain was passing the breakfast table a few mornings since, he discovered one of the carpenters in the act of helping himself to a second mutton chop. Snatching it from from him, the Captain exclaimed in an indignant tone, sir! do you suppose the boat is made out of mutton chops?" The reply of the hungry officer is not given.

Quite a lively skirmish took place between the A. and M. Steamship Company, the Barge Line and the new steamer Bismarck, upon the subject of rates, which were started in the morning at 65c per barrel for flour, other articles in proportion. Before 'Change hours were over, however, they had dwindled down to 35c per barrel, other articles in due proportion, and, "to make a long story short," we may now state it will be "shippers' option" if rates are any higher during the coming season, and it is more than probable that they will be lower. The cause of this reduction was, we are informed, by reason of the Barge Line claiming the right to carry freights at an established figure lower than the steamers, this right being denied by the owners of the Bismark, and partially sustained by the A. and M. Steamship Line; the upshot was, as we have stated, the owners of the Bismark asserting that they had a steamer that could carry freights as low as the barges, and that they had no disposition to keep a high figure merely that the tow company might have larger profits.

River and Weather.

[By Telegraph to the Pittsburgh Gazette.]

LOUISVILLE, Feb. 27.—River rising with 6½ feet in the canal by the mark. Thermometer 54; cloudy.

ST. LOUIS, Feb. 27.—Weather cloudy with flurries of snow.

NASHVILLE, Feb. 27.—River falling with three feet on Harpeth Shoals. Weather cold and cloudy. Departed—Nashville, for Cairo; Alert for Cumberland.

MEMPHIS, Feb. 27.—Weather clear and cool. River falling steadily. Freights moderately active. Arkansas River falling with twenty-two inches to Pine Bluff. Departed—Quitman, with 800 bales of cotton; Indiana and Cornelia, for New Orleans; Countess, 400 bales of cotton for Cairo; Emperor, 500 bales of cotton and 50 bales of rags, for Cincinnati; Great Republic, for St. Louis.

An unknown passenger fell off the Paragon last night at the wharf and was drowned.

The cook of the Great Republic struck a colored stevedore on the head with an axe this morning, fatally wounding him. The cook escaped to the Arkansas shore in a skiff. The Sam Hale leaves to-morrow.
